

Run your business from anywhere with cloud-based phone service.

Connect with customers and collaborate with co-workers from anywhere with Ooma business phone service brought to you by Regus.

Equip your business to soar.

Choose from one of two cloud-based phone solutions: Ooma Business Phone or Ooma Business Phone Pro.

1. Ooma Business Phone. Standard phone service for light use.

This baseline business phone service provided by Regus enables you with rich, yet simple communications features. Charged by metered calls, per minute, where applicable—you'll get the convenience and performance of the business phone system voted #1 by PC Magazine readers 8 years in a row.

Ooma Business Phone Benefits:

Get set up in minutes

Mobile and desktop apps help you stay connected and work from anywhere. Add optional desk phones for greater convenience. An intuitive user portal lets you easily set up and manage your preferences.

Be mobile

Whether you're using our mobile app, desktop app, or both, connect and collaborate with co-workers and customers, from anywhere as if you were in the office.

Customer support

Your Community Manager or IT helpdesk provides support whenever you need it.

Standard phone features

You'll get a dedicated business phone number, call hold, call waiting, voicemail to email, plus other standard features to keep your business moving.

2. Ooma Business Phone Pro Service. Advanced phone service for communication and collaboration.

Get unlimited calling and 35+ advanced features like virtual receptionist, video meetings, call recording, virtual fax, for just \$29.95 USD monthly per user, plus taxes and fees.

Robust call management

Route callers with an auto-attendant, multi-level-menus, and extension dialing. Through a cloud-admin, customizing routing, messages, and more is so easy.

Collaborate easily from anywhere

Share ideas, proposals, and team build to your hearts' content! Join video and audio conferencing from your desktop browser or the smartphone or desktop apps.

Call blocking keeps you productive

Reduce unwanted calls with Ooma. We screen and block known robocallers and give you flexible options to create customized block lists.

Easily record calls

All incoming and outgoing calls can be recorded to improve customer service training, or for legal requirements.
