

# Ooma IP Phones

Ooma provides a range of ready to use business phones perfect for any business. Choose from a range of phones from entry level to executive class. And with the Ooma cloud-based user portal, it's easy to set up and manage them from anywhere.

## Yealink SIP-T23G

Designed for medium to heavy call volume, this phone features an intuitive user interface and enhanced functionality which make it easy for people to interact and maximize productivity. HD technology enables rich, clear and life-like voice communications. As a cost effective IP solution, it helps users to streamline business processes, delivering a powerful, secure, and consistent communication experience for small and large offices. In addition to supporting up to 6 simultaneous calls, it also has:

- Dual-port Gigabit Ethernet with PoE (Power over Ethernet) support
- 132×64-pixel monochrome LCD with backlight showing a clear five-line data display
- Exceptional voice clarity
- Three line keys for up to six simultaneous calls
- RJ-9 connector for optional headset
- Enhanced speaker quality
- Four soft keys
- Power supply and Ethernet cable included
- Monthly fee: \$5.99 or purchase for \$79.00

## Yealink T48S

The Yealink T48S packs in all of the functions and features you need from an executive-level business phone. Its large touch screen makes it easy to shift between pages and applications, and it comes with the latest in HD Voice technology for clear and smooth business calling.

The T48S is sleek and elegant in its design, but provides even more features and integration capabilities. For instance, the phone works with Bluetooth USB dongles and Wifi USB dongles, and uses Gigabit Ethernet technology for fast and effective call functionality. Features supported:

- HD speaker quality, exceptional voice clarity
- Dual-port Gigabit switch with PoE (Power over Ethernet) support
- A 7", 800×480-pixel backlit color touchscreen display
- Up to 16 line keys that can handle as many as 32 simultaneous calls
- USB 2.0 port
- 29 one-touch programmable buttons
- RJ-9 connector for optional headset
- Power supply and Ethernet cable included
- Purchase price: \$224.00

## Yealink CP920 IP Conference Phone

This conference phone is a perfect choice for small and medium-sized conference rooms. The full-duplex and acoustic echo-canceling technology allows clear and life-like conference calls. With its intuitive user interface and advanced extras including WiFi, Bluetooth, and Power-Over-Ethernet support built in, the CP920 strikes a balance between sleek interface and ease-of-use.

- Full-duplex speakerphone for use in small & medium-sized conference rooms
- 20 foot (6 m), 360° voice pickup range
- Three-microphone array
- Acoustic echo cancellation (320 msec)
- Background noise suppression
- Backlit 248×120/ 3.1" graphical LCD display
- Sensitive touch keypad
- Built-in WiFi (802.11) support
- Built-in Bluetooth 4.0 support
- Power over Ethernet support
- Power supply and Ethernet cable included
- Purchase price: \$334.00
